# Open Innovation 4.0 technologies for maritime sector in the Atlantic Area

AT Virtual Final Capitalization Event

🕐 29th March 2023

📅 09:30 CET

📍 AS5-HUB – Science and Technology Park of Gijón, Asturias

The AT Virtual Final Capitalization Event will be hosted by the project leader, CEEI Asturias, together with all the European partners, agents and companies involved in the process of implementation of technological solutions to identified technological challenges from Maritime Safety Training Centers (MSTCs) in the Atlantic Area. During the event the best tools and methodologies to accelerate digitalization processes through the introduction of the industry 4.0 enabling technologies (IoT, Big Data / Data Analytics and Vision Technologies) will be presented, thus allowing to improve capacity, preparation and response in maritime emergency operations. Furthermore, it will be an extraordinary opportunity to learn from European experts working in the open innovation and digitalization strategies and policies.

# AGENDA

**09:30 Reception of attendees**

**10:00 Welcome and opening of the capitalization event**

Borja Sánchez. Regional Ministry of Science, Innovation and University. Principality of Asturias, Spain

Cristina Fanjul. CEEI Asturias. AT Virtual Lead Partner

## AT Virtual Project & Results

**10:30 AT Virtual development and main deliverables: platform for Open Innovation**

Cristina Fanjul. CEEI Asturias. AT Virtual Lead Partner

**11:00 Fast-track pitch presentations from digital enablers in AT Virtual & Visit the Demo Stage**

PibiCo Compañía de Inteligencia de Negocio y Control. IOT

UpIntelligence. Asturias, Spain. Big Data / Analytics

Koinsys, SL. Asturias, Spain. Big Data / Analytics

Virtual Tour Media. Irland. Vision Technologies

Inklusion Entertainment. Portugal. Vision Technologies

Azai Solutions. Asturias, Spain. Vision Technologies

**11:30 Demo Stage & Coffee Break**

**11:45 The Action Plan on the Digitalization: conclusions and challenges to solve**

Eneko Álvarez. Tecnalia Foundation. Partner Responsible of WP4 Diagnosis

**12:15 The implementation process for the i4.0 selected solutions**

Covadonga Suárez. SASEMAR-Centro Jovellanos. Responsible of WP6 Prototyping & Implementation

## International know-how based on technological solutions implemented

**12:45 IOT Panel**

Mike Griew. National Maritime College Ireland (MTU). Ireland, MSTC

Francisco Aláez. PibiCo Compañía de Inteligencia de Negocio y Control SL. Spain, Startup

Rui Miranda. Instituto Pedro Nunes (IPN). Portugal, BIC

**13:15 Demo Stage & Networking Lunch**

**14:30 Big Data / Analytics Panel**

Juan Carlos Fdez. Salinas. SASEMAR-Centro Jovellanos. Spain, MSTC

Jorge Blanco. UpIntelligence. Asturias, Spain, Startup

Eileen Moloney. CorkBIC. Ireland, BIC

**15:00 Vision Technologies Panel**

Joao Carlos Frade. Escola Superior Nautica Infante D. Henrique. Portugal, MSTC

André Barbosa. Inklusion Entertainment. Portugal, Startup

Valerie Moreau. Laval Mayenne Technopole. France, BIC

## Digitalization and open innovation strategies & policies

**15:30 Digitalization and Open Innovation Strategies & Policies**

Pablo Campos. R&D Responsible. Grupo Junquera

Jaime Fernández. IDEPA Innovation Area Responsible. DiHUB Asturias

**16:30 Closure of the capitalization event**
